

PILKINGTON

To: Whom It May Concern

Pilkington is a leading glass manufacturer providing one of the most extensive product offerings in the industry. Our technological product advancements include the float glass process by which almost all quality glass is produced today as well as many leading architectural glass products such as Eclipse Advantage™.

Pilkington supplies manufactured glass to fabrication/processing companies that enhance its value through cutting, heat treating, laminating and insulating.

Arch Aluminum and Glass Co., Inc. is a customer and fabricator in good standing with Pilkington.
